

Certificate of RoHS Compliance

We hereby certify that MidOpt optical components, lens and filter assemblies are manufactured in accordance with Directive 2002/95/EC (Restriction of Hazardous Substances). All optical components that we offer are deemed to be in compliance with the maximum concentration values issued by the European Union Technical Adaptation Committee (TAC) or by exemptions stated in 2005/747/EC Annex 13 (allowing the use of lead and cadmium in optical and filter glass). To our understanding the information provided herein is correct at the time of its release.

This is to be considered general information for the safe handling, storage, and use of the product itself or the product that it will become a part of. This document is not intended to be a warranty or quality specification. The purpose of regulatory information is for guidance only. Those who may purchase these products and product end users are responsible for establishing the relevance of regulations and legislation depending on their specific application of these products.
